NEW YORK, July 23.—Thrust into a small steamer trunk, beneath a pile of clothing, the nude body of a young woman who is believed to have been murdered in Detroit and shipped to this city, was found today by employes of the American Express company.

For a number of days the trunk rested amidst a mass of unclaimed baggage on the third floor of the warehouse. Express Shipment from Detroit, Mich., Reveals Murder Mystery.

BODY ENTIRELY NUDE

Victim, Police Suspect, Might Have Been Put In Trunk While Alive.

NEW YORK, July 23.—Thrust into a small steamer trunk, beneath a pile of clothing, the nude body of a young woman who is believed to have been murdered in Detroit and shipped to this city, was found today by employes of the American Express company.

The trunk arrived from Detroit on June 17. The shipper gave the name of A. A. Tieturn, of 105 Harper street, Detroit, and the gruesome consignment was addressed to "James Douglas, New York City."

The victim's face had turned dark giving one theory that she might have been put into the trunk while still alive. No wounds were found on the body.

James De Marest, delivery foreman at the American Express warehouse at 225 East 44th street where the unclaimed trunk was lying, reported the discovery to the police.

For a number of days the trunk rested amidst a mass of unclaimed baggage on the third floor of the warehouse. Recently the clerks began to complain of the odor and the trunk was removed to the basement. Foreman De Marest, believng that the trunk contained perishable foodstuffs in a state of decay, decided to investigate. Forcing the lid he lifted the mass of clothing and was horrified to see the human body.

The police declare that the woman was unquestionably murdered.

Word was sent to Detroit and efforts are now being made to identify the victim.

DEATH TOLL IN BELFAST RIOTS IS INCREASED; 150 WOUNDED

Thirteen Persons are Killed In Fighting During Night.

TROOPS ARE ON GUARD

Damage Caused by Rioting is Estimated At $10,000,000.

LONDON, July 23.—Thirteen persons were killed in violent street fighting that raged at Belfast during the night, according to revised estimates of casualties telegraphed from the Ulster city this afternoon. This number is believed to include some of the wounded who succumbed to their injuries.

The trouble spread to Banbridge where soldiers charged a mob with fixed bayonets. Two persons are reported to have been killed at Banbridge.

A dispatch from Belfast at noon said that a heavy rainstorm had set in which scattered the crowds and aided materially in quieting the city.

Latest advices put the number of wounded at 150, which was far in excess of earlier estimates. The most of the dead were said to be Nationalists (anti-Unionists).

Four regiments of British troops were on guard in the city during the morning.

The trouble threatened today to spread outside of Belfast.

Thirty more arrests have been made at Belfast by soldiers and constables, bringing the total number of prisoners to nearly 90.

A boy was shot dead in the outbreak of fighting at Banbridge, the native town of Inspector General Smyth, of the Royal Irish constabulary, who was assassinated at Cork last Saturday.

Sir Hamar Greenwood, chief secretary for Ireland, estimated the damage in the Belfast riots at more than $10,000,000.

Fire broke out in Falls Road during the height of the battle and the firemen attacked the flames amidst flying bullets.

There was heavy sniping at times during the night, the riflemen hidden on the roofs and in the upper stories of buildings in the Falls Road district.

Soldiers opened fire against the buildings with machine guns and a spectacular battle raged in the glare of the conflagrations.

The Exchange Telegraph correspondent at Belfast said it was impossible to estimate the casualties because many wounded and perhaps some of the dead had been carried away during the darkness.

Many persons in Belfast are home-

less. Some were evicted and others were driven out by the fighting.

During a lull in the firing before midnight the Unionists formed a procession and marched through the principal streets of Belfast with the Union Jack. This further infuriated the Nationalists and Sinn Feiners.

Among the latest batch of wounded taken to Belfast hospitals were six policemen and a soldier. They were said to be in serious condition.

Fifty-four cases of looting had been heard in the Belfast courts up to midnight. Despite the efforts of the police and soldiers, pillaging continued.

"No one can tell where the Belfast riots will end," said Sir Hamar Greenwood, addressing a night session of the house of commons. "The disorders are evidently the result of the murder of Inspector General Smyth at Cork, who never used the words for which he was slain."

The Irish secretary referred to an anti-Irish speech which Inspector General Smyth was alleged by the Sinn Feiners to have made to the constables in county Kerry recently.

Sir Hamar said that the government is preparing a bill for the creation of new courts in reland to deal quickly with every criminal offense. These tribunals, he said, would supersede the civil courts.

vote of railway workers who are to record their attitude toward it by the referendum will not be made before September 1, it was stated by the brotherhood heads.

Here is the way the union leaders voted:

For acceptance under protest without a referendum—Brotherhood of Locomotive Engineers; Brotherhood of Railroad Trainmen; Switchmen's Union of North America; Brotherhood of Locomotive Firemen and Enginemen; Order of Railway Conductors; United Brotherhood of Maintenance of Way Employes and Railroad Shop Laborers; Brotherhood of Stationary Firemen and Oilers; Masters, Mates and Pilots of America; Brotherhood of Railway and Steamship Clerks; Freight Handlers, Express and Station Employes.

For submission to referendum, with acceptance recommended—Railway Employes' Department of the American Federation of Labor; International Association of Machinists; Sheet Metal Workers International Alliance, Brotherhood of Railway Carmen of America; International Brotherhood of Blacksmiths, Drop Forgers and Helpers, International Brotherhood of Boilermakers, Iron Shipbuilders and Helpers of America; Brotherhood of Railway Signalmen of North America.

For rejection, with the ordering of a strike vote—Order of Railway Telegraphers.

"However, disappointing the labor board award may be to the various organizations affected, it is felt by their representatives that the public interest demands its acceptance," commented L. E. Sheppard, president of the Order of Railway Conductors.

The stand of the railroad telegraphers was put forward by R. J. Manion, president of the organization, in a statement declaring they had been discriminated against in the award.

Heads of the "outlaw" unions in a separate meeting voted 11 to 1 to accept the award, although they were not included in its provision. It was reported at the Federal building today that grand jury action may be taken here Monday against the 'rebel' chiefs under the Lever act unless the striking switchmen who have not yet returned to work are back on their jobs by that time. The strikers claim they are "merely on a vacation."

less. Some were evicted and others were driven out by the fighting.

During a lull in the firing before midnight the Unionists formed a procession and marched through the principal streets of Belfast with the Union Jack. This further infuriated the Nationalists and Sinn Feiners.

Among the latest batch of wounded taken to Belfast hospitals were six policemen and a soldier. They were said to be in serious condition.

Fifty-four cases of looting had been heard in the Belfast courts up to midnight. Despite the efforts of the police and soldiers, pillaging continued.

"No one can tell where the Belfast riots will end," said Sir Hamar Greenwood, addressing a night session of the house of commons. "The disorders are evidently the result of the murder of Inspector General Smyth at Cork, who never used the words for which he was slain."

The Irish secretary referred to an anti-Irish speech which Inspector General Smyth was alleged by the Sinn Feiners to have made to the constables in county Kerry recently.

Sir Hamar said that the government is preparing a bill for the creation of new courts in reland to deal quickly with every criminal offense. These tribunals, he said, would supersede the civil courts.

POLITICAL GOSSIP FROM ALL PARTS OF COUNTY

Cleveland Men Meet Delegates to Non-Partisan League Meeting—County Primary Candidates Busy.

BY M. K. ZIMERMAN

Thomas S. Farrell, director of Public Utilities of the City of Cleveland, and Fred W. Thomas, secretary to Mayor Fitzgerald of Cleveland, and who was secretary to former Mayor Harry Davis of that city motored to Lisbon Saturday and spent several hours around the court house square meeting delegates to the Non-Partisan Political League meeting. Mr. Farrell has long been associated with the labor movement in Ohio and was at one time first vice president of the Ohio Federation of Labor and also secretary of the Cleveland Federation of Labor. One of the first men he met in Lisbon was Will T. Blake, of East Liverpool, and the two recounted some happy moments spent together in attending past meetings of the Ohio Federation of Labor.

"You're certainly doing some excellent road work in Columbiana county," said Mr. Farrell. "I'm only sorry we cannot get down to East Liverpool and Wellsville this trip, for we have learned in Cleveland that for a motor scenic ride, there is nothing to compare with the southern part of old Columbiana county."

Some very pleasant events are staged occasionally in the village of Columbiana, and last Saturday night the American Legion Post of that place staged a public dance—on the street. The crowd was swelled by the candidates who not only "dug in" after votes, but enjoyed the evening as much as did the guests of the Legion.

William A. Aughinbaugh, of Wellsville, Democratic candidate for State Representative, was the only candidate for that office in the meeting of the Non-Partisan League organization meeting at Lisbon last Saturday. Republican candidates for state representative were on the outside—of the court house. Aughinbaugh was a delegate to the meeting from a local union in Wellsville.

Of all offices that will be voted upon at the primary election August 10, the least mentioned—if ever talked about is that of coroner. Dr. J. M. VanFossen of East Palestine, now serving, is the candidate on the Republican ticket, while Dr. Wm. J. Taylor of East Liverpool is the Democratic candidate. Neither is soliciting votes.

The Republican central committee in the different precincts of the county is taking no part in the primary election. "It is our task to work for the success of the party ticket at the November election," declared Secretary Ben L. Bennett of the County Republican Executive Committee. "We have our work planned and will start the ball rolling immediately following the primary election and not before."

On July 31 Monaca will be featured at Central park. The P. H. C. will go to Sebring on August 7 and the following Sunday, August 8, will play the Goat Hills at Alliance. Cleveland Men Meet Delegates to Non-Partisan League Meeting—County Primary Candidates Busy.

BY M. K. ZIMERMAN

Thomas S. Farrell, director of Public Utilities of the City of Cleveland, and Fred W. Thomas, secretary to Mayor Fitzgerald of Cleveland, and who was secretary to former Mayor Harry Davis of that city motored to Lisbon Saturday and spent several hours around the court house square meeting delegates to the Non-Partisan Political League meeting. Mr. Farrell has long been associated with the labor movement in Ohio and was at one time first vice president of the Ohio Federation of Labor and also secretary of the Cleveland Federation of Labor. One of the first men he met in Lisbon was Will T. Blake, of East Liverpool, and the two recounted some happy moments spent together in attending past meetings of the Ohio Federation of Labor.

"You're certainly doing some excellent road work in Columbiana county," said Mr. Farrell. "I'm only sorry we cannot get down to East Liverpool and Wellsville this trip, for we have learned in Cleveland that for a motor scenic ride, there is nothing to compare with the southern part of old Columbiana county."

Some very pleasant events are staged occasionally in the village of Columbiana, and last Saturday night the American Legion Post of that place staged a public dance—on the street. The crowd was swelled by the candidates who not only "dug in" after votes, but enjoyed the evening as much as did the guests of the Legion.

William A. Aughinbaugh, of Wellsville, Democratic candidate for State Representative, was the only candidate for that office in the meeting of the Non-Partisan League organization meeting at Lisbon last Saturday. Republican candidates for state representative were on the outside—of the court house. Aughinbaugh was a delegate to the meeting from a local union in Wellsville.

Of all offices that will be voted upon at the primary election August 10, the least mentioned—if ever talked about is that of coroner. Dr. J. M. VanFossen of East Palestine, now serving, is the candidate on the Republican ticket, while Dr. Wm. J. Taylor of East Liverpool is the Democratic candidate. Neither is soliciting votes.

The Republican central committee in the different precincts of the county is taking no part in the primary election. "It is our task to work for the success of the party ticket at the November election," declared Secretary Ben L. Bennett of the County Republican Executive Committee. "We have our work planned and will start the ball rolling immediately following the primary election and not before."

Bucyrus—One out of four marriages in Crawford county for the year ending June 30, 1920, proved so much of a failure that the divorce court was appealed to. THE BIG JOB.

The biggest job in the country today is the working up of the transportation industry to the point where it can carry its load as it should be carried—that is, without strain and bad management and cusswords, and everything but cars where they are needed, moved swiftly to where they ought to be.

A newspaper man who has been studying the situation carefully says that experts generally have agreed on these three fundamental facts:

1. That industry in the United States has outgrown the whole system of rail transportation.

2. That steps must be taken at once to increase the working capacity of the whole system.

3. That development to actual 100 per cent efficiency for present and future demands is going to take time—years maybe.

No single cause is responsible. There are as many causes perhaps as there are influences in the "general economic situation." There have been labor troubles. There is the big car shortage, which is estimated as high as 30 to 50 per cent. A corresponding number of new locomotives is needed to haul the cars when they are obtained. But practical railroad men admit that rolling stock alone will not solve the problem. If the cars needed were all supplied today, they could not be used because there are not enough tracks to move them on, and there are no adequate terminal facilities in the way of freight yards, repair shops, etc.

More trackage, perhaps, is the most fundamental need. But new tracks, like new rolling stock and better freight yards, cannot be built without money. And it is impossible now to obtain the necessary money. Billions are needed, if the transportation system is to be developed to meet the country's requirements as well, comparatively, as it did 15 or 20 years ago. And if those billions were miraculously supplied, the essential labor and materials are not now obtainable.

It can all be done, and it will be done. The American people, or any group of them, do not admit failure. But the process will be so slow that often impatient critics will not see any progress at all. This should be clearly recognized, in order to keep down disappointment. The hopeful fact is that progress is really being made, even now, and the most hopeful thing of all is that the public has begun to realize the enormous task of railroad reconstruction.

BOY PLAYGROUND BUILDERS.

The value of public playgrounds for children is quite generally recognized in communities all over the country. Many cities, however, are hampered in their playground development by the cost of labor and materials for laying out and equipping the grounds.

From one middle-western town of about 12,000 population comes word of a possible solution to this problem of expense. Playground patrons, the boys of the neighborhood, have been doing a good deal of work of preparation. They have cleared off weeds and grass from the play area and have laid out their own baseball diamond, croquet court and tennis courts. Needless to say, it has been fun and recreation of a wholly satisfactory nature. Boys are happiest when actively engaged upon some enterprise which appears to them important. That sometimes their activities lead to juvenile court proceedings is usually not the boys' fault, but the fault of parents and a community which have failed to offer them the proper outlet for their boundless energy.

Letting the boys of a neighborhood help with the construction of a playground does not mean exploitation. Granted a vacant lot on which they were permitted to play, they would lay out a baseball diamond before their mothers had finished spring housecleaning. Under proper supervision, so that no boy does work which is too heavy for his strength or keeps at a given task too long for health and comfort, working on the playground is an excellent occupation. And once a playground is ready for play, every boy that put in a few hours fixing it up is going to feel the keenest interest in keeping it in good condition and in maintaining a fine spirit of comradeship and co-operation.

ROYAL CANADIAN JUSTICE

Far up in Hudson Bay Territory, near Chesterfield Inlet, Keewatin, an Eskimo named Ouangwak is alleged to have murdered a man in order to get his wife. Sergeant Dougles of the Royal Canadian Mounted Police trailed him and finally caught him, and brought him to Ottawa, where he has been confined.

Very soon Sergeant Douglas, together with a white man's judge is to go with him to the district where the crime was committed, there to hold the murder trial. The idea in taking the man "home" for trial is that the natives of that region may be impressed with the fact that Canadian justice must obtain among them, and to prove that, as usual, "the northwestern mounted policeman never loses his man."

In contrast to this, any American citizen may set down in his mind the murders committed in his locality in the past few years. How many of the criminals were caught? How many were punished? How many were allowed to escape with no respect for the law or civilized institutions of defense?

Lynching and mobs have no excuse in any community. But they are natural outgrowth, none the less, of official laxity. A little jacking up all along the line among those entrusted with preventing crime, and catching and punishing the criminal, would help abolish lynchings and might succeed, in time, in inspiring a respect for American justice somewhat comparable with that obtaining all over the world for the British variety.

The condition of the new sugar crop promises an increased supply for next year of six pounds more apiece. Most of us wouldn't have a bit of difficulty in eating six pounds more than we had last year.

NEW YORK LETTER

By O. O. McINTYRE.

NEW YORK, July 23.—In my neighborhood is one of those gloomy stationery stores without which no New York block is complete. The windows are all alike—unartistically filled with rubber stamps, fortune telling books, pencils, bottles of ink, puzzle games and a jinkle-jumble of northingness.

It is run by three brothers and one confided to me the other day that they had not spoken to each other except on business in five years. Yet they cling together, each afraid to cut loose for himself. Under an L station they have a hut from which they sell the latest editions.

Queer telephone messages lead me to believe that among other things they accept divers wagers on horse races. That seems to be the main support of the stationery stores. But the character of the clientele is what interests me more and so I stood for a half hour at the counter apparently reading from a newly purchased magazine.

First came a woman clad in a loose wrapper with a silken shawl thrown about her shoulders and her feet dragging loose sandals. It was evident that she lived upstairs and that her mate was delayed. She wanted to while away the dragging hours so she bought a zippy paper back by Bertha M. Clay.

Next came a young man who confided that he had just lost his job. The boss always had it in for him. Feared he would supplant him. His room rent was $16 and it was a tough game living in New York. He went out with a copy of "Every Man a King!"

Then came a truckman with his motor racing at the curb. He bought a form sheet of the next day's entries. He smelled of onions and honest sweat and his voice was gutteral and his shirt thrown open at the collar revealed a massive hairy chest.

Others who came were a little boy after a bottle of red ink; a bootblack next door who bought a night edition and turned quickly to the market page; two girls who wanted to use the phone and swore softly when they couldn't get Heinie; a small shop keeper with his two dogs on a leash with the news that an auto had just upset and was burning up on Broadway.

Then one of the brothers looked at me questioningly, yawned and began to get out a half shutter that fitted into the front window. Another brother who presided at the L hut dropped in, put a bag of money on the counter without comment and departed.

Oyster Bay is one of the most beautiful spots around New York and perhaps the best known because the Roosevelts live there and too because it has been the meeting place of many notables. It is a town that has a lot of civic pride. In two of the gable ends of the town hall the brown stucco covering has been set with oyster shells, the pearly inside faces turned outward. The effect is odd and pleasing and as appropriate and natural as the use of the acanthus leaf in ancient Corinthian decorations.

On the good ship Perseus, which plies between New York and Coney Island, is an enterprising candy salesman who, before he starts to sell his wares, places a sample in the lap of each passenger. He has learned a bit of business psychology that efficiency sharks might not discover in years. As a result of this bit of a gamble he invariably sells more than 90 per cent of his wares.

Irvin Cobb is back from Arizona with a new hot weather story. It seems that each day it was so hot there that from his train he saw a dog chasing a rabbit and both were walking.

STATE GIVEN MAJOR PART OF CIGARET TAX

County Must Send 75 Per Cent of Collections to Columbus.

TAX TOTALS $8,719.95

Municipalities Get $1,087.33 and Township Poor Funds $1,007.33.

BY M. K. ZIMMERMAN

LISBON, July 23—When it comes to getting the cash, the State is almost the "whole thing" when the cigaret tax is concerned.

Of the $8,719.95 so far collected on this account this year by County Auditor Charles E. Hamilton, $6,200.90 has been returned to the state. The difference has been divided between townships and municipalities which have been credited with $1,087.33 and the poor fund with $1,007.33.

The official report of this tax collection has just been compiled on one sheet almost a yard in width and about two feet in depth and which is nothing but a mass of figures.

Collections under the old law have been designated as have those under the new law. "Refunders, remitters and delinquents" are shown and then follows the amounts distributed and collected under the nearly two dozen different headings.

Under the old law East Liverpool paid $136.93 cigaret tax, and under the new law $3,489.29. Of this amount the state receives $2,601.72. The municipality and municipal poor fund will alike receive $455.98.

Salem—Old law paid in $34.76; new law $1,300; state receives $942.53; municipality receives $162.76; poor fund, $162.77.

Wellsville—old law paid in $83.39; new law, $1,150; state receives $893.47 municipality receives $164.98; poor fund, $164.99.

Salineville—Old law paid in $8.75; new law, $250; state receives $183.46; municipality receives $30.48; poor fund, $30.47.

East Palestine—old law paid in $8.75; new law, $600; state receives $452.63; municipality and poor fund alike, $79.32.

Lisbon—Old law paid in $17.50; new law, $550; state receives $397.78; municipality and poor fund alike receive $64.14.

Under the old law of state received one-half of the tax collected for the sale of cigaretes, and the municipalities and poor fund were given one-fourth each of the balance.

The new law changed this percentage division and provides that the state shall receive 75 percent of the tax collected, and the municipalities and poor fund shall be given 12½ per cent each, or an equal division of the remaining 25 percent of the total collection.

THE BIG JOB.

The biggest job in the country today is the working up of the transportation industry to the point where it can carry its load as it should be carried—that is, without strain and bad management and cusswords, and everything but cars where they are needed, moved swiftly to where they ought to be.

A newspaper man who has been studying the situation carefully says that experts generally have agreed on these three fundamental facts:

1. That industry in the United States has outgrown the whole system of rail transportation.

2. That steps must be taken at once to increase the working capacity of the whole system.

3. That development to actual 100 per cent efficiency for present and future demands is going to take time—years maybe.

No single cause is responsible. There are as many causes perhaps as there are influences in the "general economic situation." There have been labor troubles. There is the big car shortage, which is estimated as high as 30 to 50 per cent. A corresponding number of new locomotives is needed to haul the cars when they are obtained. But practical railroad men admit that rolling stock alone will not solve the problem. If the cars needed were all supplied today, they could not be used because there are not enough tracks to move them on, and there are no adequate terminal facilities in the way of freight yards, repair shops, etc.

More trackage, perhaps, is the most fundamental need. But new tracks, like new rolling stock and better freight yards, cannot be built without money. And it is impossible now to obtain the necessary money. Billions are needed, if the transportation system is to be developed to meet the country's requirements as well, comparatively, as it did 15 or 20 years ago. And if those billions were miraculously supplied, the essential labor and materials are not now obtainable.

It can all be done, and it will be done. The American people, or any group of them, do not admit failure. But the process will be so slow that often impatient critics will not see any progress at all. This should be clearly recognized, in order to keep down disappointment. The hopeful fact is that progress is really being made, even now, and the most hopeful thing of all is that the public has begun to realize the enormous task of railroad reconstruction.

BOY PLAYGROUND BUILDERS.

The value of public playgrounds for children is quite generally recognized in communities all over the country. Many cities, however, are hampered in their playground development by the cost of labor and materials for laying out and equipping the grounds.

From one middle-western town of about 12,000 population comes word of a possible solution to this problem of expense. Playground patrons, the boys of the neighborhood, have been doing a good deal of work of preparation. They have cleared off weeds and grass from the play area and have laid out their own baseball diamond, croquet court and tennis courts. Needless to say, it has been fun and recreation of a wholly satisfactory nature. Boys are happiest when actively engaged upon some enterprise which appears to them important. That sometimes their activities lead to juvenile court proceedings is usually not the boys' fault, but the fault of parents and a community which have failed to offer them the proper outlet for their boundless energy.

Letting the boys of a neighborhood help with the construction of a playground does not mean exploitation. Granted a vacant lot on which they were permitted to play, they would lay out a baseball diamond before their mothers had finished spring housecleaning. Under proper supervision, so that no boy does work which is too heavy for his strength or keeps at a given task too long for health and comfort, working on the playground is an excellent occupation. And once a playground is ready for play, every boy that put in a few hours fixing it up is going to feel the keenest interest in keeping it in good condition and in maintaining a fine spirit of comradeship and co-operation.

ROYAL CANADIAN JUSTICE

Far up in Hudson Bay Territory, near Chesterfield Inlet, Keewatin, an Eskimo named Ouangwak is alleged to have murdered a man in order to get his wife. Sergeant Dougles of the Royal Canadian Mounted Police trailed him and finally caught him, and brought him to Ottawa, where he has been confined.

Very soon Sergeant Douglas, together with a white man's judge is to go with him to the district where the crime was committed, there to hold the murder trial. The idea in taking the man "home" for trial is that the natives of that region may be impressed with the fact that Canadian justice must obtain among them, and to prove that, as usual, "the northwestern mounted policeman never loses his man."

In contrast to this, any American citizen may set down in his mind the murders committed in his locality in the past few years. How many of the criminals were caught? How many were punished? How many were allowed to escape with no respect for the law or civilized institutions of defense?

Lynching and mobs have no excuse in any community. But they are natural outgrowth, none the less, of official laxity. A little jacking up all along the line among those entrusted with preventing crime, and catching and punishing the criminal, would help abolish lynchings and might succeed, in time, in inspiring a respect for American justice somewhat comparable with that obtaining all over the world for the British variety.

The condition of the new sugar crop promises an increased supply for next year of six pounds more apiece. Most of us wouldn't have a bit of difficulty in eating six pounds more than we had last year.

NEW YORK LETTER

By O. O. McINTYRE.

NEW YORK, July 23.—In my neighborhood is one of those gloomy stationery stores without which no New York block is complete. The windows are all alike—unartistically filled with rubber stamps, fortune telling books, pencils, bottles of ink, puzzle games and a jinkle-jumble of northingness.

It is run by three brothers and one confided to me the other day that they had not spoken to each other except on business in five years. Yet they cling together, each afraid to cut loose for himself. Under an L station they have a hut from which they sell the latest editions.

Queer telephone messages lead me to believe that among other things they accept divers wagers on horse races. That seems to be the main support of the stationery stores. But the character of the clientele is what interests me more and so I stood for a half hour at the counter apparently reading from a newly purchased magazine.

First came a woman clad in a loose wrapper with a silken shawl thrown about her shoulders and her feet dragging loose sandals. It was evident that she lived upstairs and that her mate was delayed. She wanted to while away the dragging hours so she bought a zippy paper back by Bertha M. Clay.

Next came a young man who confided that he had just lost his job. The boss always had it in for him. Feared he would supplant him. His room rent was $16 and it was a tough game living in New York. He went out with a copy of "Every Man a King!"

Then came a truckman with his motor racing at the curb. He bought a form sheet of the next day's entries. He smelled of onions and honest sweat and his voice was gutteral and his shirt thrown open at the collar revealed a massive hairy chest.

Others who came were a little boy after a bottle of red ink; a bootblack next door who bought a night edition and turned quickly to the market page; two girls who wanted to use the phone and swore softly when they couldn't get Heinie; a small shop keeper with his two dogs on a leash with the news that an auto had just upset and was burning up on Broadway.

Then one of the brothers looked at me questioningly, yawned and began to get out a half shutter that fitted into the front window. Another brother who presided at the L hut dropped in, put a bag of money on the counter without comment and departed.

Oyster Bay is one of the most beautiful spots around New York and perhaps the best known because the Roosevelts live there and too because it has been the meeting place of many notables. It is a town that has a lot of civic pride. In two of the gable ends of the town hall the brown stucco covering has been set with oyster shells, the pearly inside faces turned outward. The effect is odd and pleasing and as appropriate and natural as the use of the acanthus leaf in ancient Corinthian decorations.

On the good ship Perseus which plies between New York and Coney Island, is an enterprising candy salesman who, before he starts to sell his wares, places a sample in the lap of each passenger. He has learned a bit of business psychology that efficiency sharks might not discover in years. As a result of this bit of a gamble he invariably sells more than 90 per cent of his wares.

Irvin Cobb is back from Arizona with a new hot weather story. It seems that each day it was so hot there that from his train he saw a dog chasing a rabbit and both were walking.

STATE GIVEN MAJOR PART OF CIGARET TAX

County Must Send 75 Per Cent of Collections to Columbus.

TAX TOTALS $8,719.95

Municipalities Get $1,087.33 and Township Poor Funds $1,007.33.

BY M. K. ZIMMERMAN

LISBON, July 23—When it comes to getting the cash, the State is almost the "whole thing" when the cigaret tax is concerned.

Of the $8,719.95 so far collected on this account this year by County Auditor Charles E. Hamilton, $6,200.90 has been returned to the state. The difference has been divided between townships and municipalities which have been credited with $1,087.33 and the poor fund with $1,007.33.

The official report of this tax collection has just been compiled on one sheet almost a yard in width and about two feet in depth and which is nothing but a mass of figures.

Collections under the old law have been designated as have those under the new law. "Refunders, remitters and delinquents" are shown and then follows the amounts distributed and collected under the nearly two dozen different headings.

Under the old law East Liverpool paid $136.93 cigaret tax, and under the new law $3,489.29. Of this amount the state receives $2,601.72. The municipality and municipal poor fund will alike receive $455.98.

Salem—Old law paid in $34.76; new law $1,300; state receives $942.53; municipality receives $162.76; poor fund, $162.77.

Wellsville—old law paid in $83.39; new law, $1,150; state receives $893.47 municipality receives $164.98; poor fund, $164.99.

Salineville—Old law paid in $8.75; new law, $250; state receives $183.46; municipality receives $30.48; poor fund, $30.47.

East Palestine—old law paid in $8.75; new law, $600; state receives $452.63; municipality and poor fund alike, $79.32.

Lisbon—Old law paid in $17.50; new law, $550; state receives $397.78; municipality and poor fund alike receive $64.14.

Under the old law of state received one-half of the tax collected for the sale of cigaretes, and the municipalities and poor fund were given one-fourth each of the balance.

The new law changed this percentage division and provides that the state shall receive 75 percent of the tax collected, and the municipalities and poor fund shall be given 12½ per cent each, or an equal division of the remaining 25 percent of the total collection.

Seeks Another Census.

Wheeling is hoping for another census to be taken under the direction of the United States Census Bureau, due to alleged irregularities when the 1920 census was taken. According to figures in the bureau at Washington, old Wheeling, without the recently annexed suburbs, list approximately 2,000 between 1910 and this year. This is considered faulty, as Wheeling has been solidly built up within the past 10 years. H. P. Corcoran, secretary of the Wheeling Chamber of Commerce, is in Washington, where he has been promised that a new census will be ordered if irregularities are shown.

The anexed territory gave Wheeling an additional population of approximately 14,000, but it is claimed that this is far short of the number.

Seeks Another Census.

Wheeling is hoping for another census to be taken under the direction of the United States Census Bureau, due to alleged irregularities when the 1920 census was taken. According to figures in the bureau at Washington, old Wheeling, without the recently annexed suburbs, list approximately 2,000 between 1910 and this year. This is considered faulty, as Wheeling has been solidly built up within the past 10 years. H. P. Corcoran, secretary of the Wheeling Chamber of Commerce, is in Washington, where he has been promised that a new census will be ordered if irregularities are shown.

The anexed territory gave Wheeling an additional population of approximately 14,000, but it is claimed that this is far short of the number.

SUMMER GIRL OF 1920 WEARS SMARTLY EMBROIDERED MUSLINS AND ORGANDIES

Muslins and organdies are the favorite frabics this summer. Organdies are usually frilled and ruffled and made with full tunics over slender foundations. Muslins are smart when embroidered. Here are two pretty little muslin frocks which feature embroidery. The one at the right is embroidered in an all-over design of roses while the one at the left is much simpler with just large rings outlined in embroidery. Both frocks are attractive for mid-summer wear.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousanus of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. —Adv.

MAN INJURED IN AUTO ACCIDENT

Carl Fox, of Bellaire, Bruised, When Car Plunges 20 Feet from Bridge Spanning Tomlinson's Run.

As the result of an automobile accident at Pugh's mill, near Mineral Springs, six miles southwest of Chester about 4 o'clock Thursday afternoon, Carl Fox, of Bellaire, Ohio, is in the East Liverpool City Hospital today suffering from bruises about the body. His condition is not serious.

Fox, said to be a traveling salesman, was enroute to East Liverpool from a trip throughout the country, and is thought to have lost control of the machine causing the accident. While passing over a small bridge which spans Tomilson's Run, on the Mineral Springs road, at the site of the old Pugh mill, which was destroyed by fire several years ago, the machine struck a rut in the road. Before Mr. Fox, the only occupant could apply brakes, the car plunged over the side of the bridge to the ground, about 20 feet below.

Mr. Fox was buried beneath the wreckage of the machine. It was not until about an hour later that James Martin, a farmer, passing by discovered the accident. He immediately summoned other farmers, who extricated Fox. He was taken to the East Liverpool City hospital in an automobile by Thomas Kessell.

At the hospital, an examination was made. No bones were found to be broken. The machine, a touring car, equipped with a winter top, was badly damaged.

GRAND MASTER COWDER TO ATTEND CEREMONY

William H. Cowden, grand master of the West Virginia Masonic lodge, and other of the grand officers will attend the corner-stone laying of the new Masonic building here Saturday afternoon, it was announced today. Mr. Cowden will lay the corner-stone of the new structure.

The principal speaker at the ceremony will be Attorney Charles Carrigan of Moundsville. Music will be rendered by the Masonic quartet. After the ceremonies which will take place at 3 o'clock the members of the grand lodge, together with the local committee, will be banqueted at the Travelers hotel, East Liverpool. The parade will start at 2 o'clock.

Oh April 22, 1909, Chester lodge No. 142, Ancient Free and Accepted Masons was organized, with Isaac Brown, as their first worshipful master. Their first meeting place was in the old Mechanics hall, below First street at Cunnfnghams Run. They continued to meet at that place for four years.

In March, 1913, the fraternity purchased the Schrader building formerly the People's hotel at the corner of First street ans Virginia avenue. While at this location the lodge membership more than doubled. It was then decided to find a more suitable place. A committee was appointed, and the John Schrader residence was purchased on June 19, 1919. Later it was decided to put a suitable addition to this building to make it adequate for all purposes. On April, 1920, a contract was let for the erection of a building, two stories in height, 35x60 feet. These two rooms are to be used for lodge rooms on the second floor, ball room and banquet hall on the first floor. When this new addition is completed the Chester lodge of Masons will have a home that will rank with the best Blue lodge home in this country, and its location being hard to equal any place, and certainly not in the state of West Virginia.

ACCIDENT HERE CAUSES AMPUTATION OF LEG

Joseph H. Smith, of East Liverpool, proprietor of a bakery on St. Clair avenue, that city, a few days ago suffered the amputation of his right leg as the result of an accident at the Goddard bakery, Virginia avenue, Chester, about three years ago, when the second floor of the building gave way under the weight of tons of flour pinning Smith beneath the wreckage. The member was amputated just below the knee, Dr. Frank Harrison, assisted by Drs. Hobbs and Larkins, performing the operation.

Smith's right leg was badly crushed in the accident, it being necessary to saw through a heavy wooden partition and gas pipes to free him. For a time, it appeared that amputation of the leg would not be necessary although Mr. Smith was badly crippled as a result of the mishap.

From funds raised by members of the Bakers' Union of East Liverpool, Smith purchased a small oven and started in the bakery business in East Liverpool.

ARE WOMEN NATURALLY DESPONDENT?

A prominant writer so claims. Women are constituted with a delicate organism and in nine cases out of ten mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, sleeplessness, backaches, headaches, causing constant misery and as a result despondency. Lydia E. Pinkham's Vegetable Compound, a simple remedy made from roots and herbs, is the one great remedy for this condition. It goes to the root of the trouble and overcomes despondency.

MONTGOMERY RENEWS FIGHT AGAINST MORGAN

Charging corrupt practices in connection with the nomination of E. F. Morgan for governor in the Republican primary election on May 25, Samuel B. Montgomery, through his attorney, B. K. Littlepage, presented to H. D. Rummel, judge of the Kanawha county circuit court Thursday, a petition demanding a judicial inquiry into the primary election.

Though Morgan received approximately 2,000 more votes than Montgomery as the official returns show, the petitioner alleges that the corrupt practices act of the legislature of 1908, as amended by the legislature of 1915, was violated by, for and on behalf of E. F. Morgan by the purchase of votes, stuffing of ballt boxes, failure to keep records of receipts and expenditures for his candidacy as required by law, failure to make sworn statements of such expenditures, by expending many times the amount allowed by law, which is $4,125 for the nomination for governor, and by other illegal practices.

The petition avers on information and belief that more than $250,000 was expended in behalf of the candidacy of Judge Morgan. He alleges that E. F. Morgan and Grant P. Hall, mayor of Charleston, on the one hand, and William McKell, T. E. Houston,

Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

MAN INJURED IN AUTO ACCIDENT

Carl Fox, of Bellaire, Bruised, When Car Plunges 20 Feet from Bridge Spanning Tomlinson's Run.

As the result of an automobile accident at Pugh's mill, near Mineral Springs, six miles southwest of Chester about 4 o'clock Thursday afternoon, Carl Fox, of Bellaire, Ohio, is in the East Liverpool City Hospital today suffering from bruises about the body. His condition is not serious.

Fox, said to be a traveling salesman, was enroute to East Liverpool from a trip throughout the country, and is thought to have lost control of the machine causing the accident. While passing over a small bridge which spans Tomilson's Run, on the Mineral Springs road, at the site of the old Pugh mill, which was destroyed by fire several years ago, the machine struck a rut in the road. Before Mr. Fox, the only occupant could apply brakes, the car plunged over the side of the bridge to the ground, about 20 feet below.

Mr. Fox was buried beneath the wreckage of the machine. It was not until about an hour later that James Martin, a farmer, passing by discovered the accident. He immediately summoned other farmers, who extricated Fox. He was taken to the East Liverpool City hospital in an automobile by Thomas Kessell.

At the hospital, an examination was made. No bones were found to be broken. The machine, a touring car, equipped with a winter top, was badly damaged.

GRAND MASTER COWDER TO ATTEND CEREMONY

William H. Cowden, grand master of the West Virginia Masonic lodge, and other of the grand officers will attend the corner-stone laying of the new Masonic building here Saturday afternoon, it was announced today. Mr. Cowden will lay the corner-stone of the new structure.

The principal speaker at the ceremony will be Attorney Charles Carrigan of Moundsville. Music will be rendered by the Masonic quartet. After the ceremonies which will take place at 3 o'clock the members of the grand lodge, together with the local committee, will be banqueted at the Travelers hotel, East Liverpool. The parade will start at 2 o'clock.

On April 22, 1909, Chester lodge No. 142, Ancient Free and Accepted Masons was organized, with Isaac Brown, as their first worshipful master. Their first meeting place was in the old Mechanics hall, below First street at Cunninghams Run. They continued to meet at that place for four years.

In March, 1913, the fraternity purchased the Schrader building formerly the People's hotel at the corner of First street and Virginia avenue. While at this location the lodge membership more than doubled. It was then decided to find a more suitable place. A committee was appointed, and the John Schrader residence was purchased on June 19, 1919. Later it was decided to put a suitable addition to this building to make it adequate for all purposes. On April, 1920, a contract was let for the erection of a building, two stories in height, 35x60 feet. These two rooms are to be used for lodge rooms on the second floor, ball room and banquet hall on the first floor. When this new addition is completed the Chester lodge of Masons will have a home that will rank with the best Blue lodge home in this country, and its location being hard to equal any place, and certainly not in the state of West Virginia.

ACCIDENT HERE CAUSES AMPUTATION OF LEG

Joseph H. Smith, of East Liverpool, proprietor of a bakery on St. Clair avenue, that city, a few days ago suffered the amputation of his right leg as the result of an accident at the Goddard bakery, Virginia avenue, Chester, about three years ago, when the second floor of the building gave way under the weight of tons of flour pinning Smith beneath the wreckage. The member was amputated just below the knee, Dr. Frank Harrison, assisted by Drs. Hobbs and Larkins, performing the operation.

Smith's right leg was badly crushed in the accident, it being necessary to saw through a heavy wooden partition and gas pipes to free him. For a time, it appeared that amputation of the leg would not be necessary although Mr. Smith was badly crippled as a result of the mishap.

From funds raised by members of the Bakers' Union of East Liverpool, Smith purchased a small oven and started in the bakery business in East Liverpool.

A prominant writer so claims. Women are constituted with a delicate organism and in nine cases out of ten mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, sleeplessness, backaches, headaches, causing constant misery and as a result despondency. MONTGOMERY RENEWS FIGHT AGAINST MORGAN

Charging corrupt practices in connection with the nomination of E. F. Morgan for governor in the Republican primary election on May 25, Samuel B. Montgomery, through his attorney, B. K. Littlepage, presented to H. D. Rummel, judge of the Kanawha county circuit court Thursday, a petition demanding a judicial inquiry into the primary election.

Though Morgan received approximately 2,000 more votes than Montgomery as the official returns show, the petitioner alleges that the corrupt practices act of the legislature of 1908, as amended by the legislature of 1915, was violated by, for and on behalf of E. F. Morgan by the purchase of votes, stuffing of ballt boxes, failure to keep records of receipts and expenditures for his candidacy as required by law, failure to make sworn statements of such expenditures, by expending many times the amount allowed by law, which is $4,125 for the nomination for governor, and by other illegal practices.

The petition avers on information and belief that more than $250,000 was expended in behalf of the candidacy of Judge Morgan. He alleges that E. F. Morgan and Grant P. Hall, mayor of Charleston, on the one hand, and William McKell, T. E. Houston,

POTTERY NEWS

TUNNEL KILN AT KOKOMO SUCCESS

Hard Work and Stick-to-it-iveness Responsible for Progress Made In Kiln's Operation at Great Western Co. Plant.

Hard work and stick-to-it-iveness is what ultimately made the car tunnel kiln installation at the Great Western Pottery Co's plant at Kokomo, Ind., successful. When the kiln was first completed, considerable difficulty was met with in its operation, largely due perhaps, to the fact that its working principles were entirely different from that of periodic kilns which had previously been used to burn sanitary ware at this plant.

However, those in charge never lost faith or confidence in the wisdom of their choice and finally after getting a better understanding of the working principles have found the proper application and as a result they came out ahead and are now satisfied that they "have the best tunnel kiln on the market."

The installation at the above plant, which is one of the many factories operated by the Standard Sanitary Manufacturing Co., of Pittsburg, is an open or direct-fired type of railroad continuous tunnel kiln such as is designed by the Didier-March Co. It is 297 feet long. The tracks are loaded with 23 pieces of ware placed in sagger and the kiln's capacity is 12 to 16 trucks per 24 hours.

There are 16 gas producer burners located on earth side of the kiln, 12 which are used for firing. The difference in temperature between the first and last burner amounts to approximately 200 deg. Thus there is only gradual increases in temperature as the ware passes thru the firing zone. The pryometer registers a temperature of about 2,170 deg. Fahr. at the hottest point although cone ten is tipped over in the burning. The kiln is used only for bisque firing, the glazed ware being burned in the regular periodic kilns.

To make the gas for the kiln consumption, two International Clay Machinery Co., gas producers are employed. When the installation was first made, the gas from both producers was permitted to combine by entering a common flue and this was later divided to feed both sides of the kiln. Better results are now obtained by connecting one producer with one side of the kiln and the other producer with the other side. Eastern Kentucky coal is used for gas making.

The fuel requirements are eight tons of coal per 24 hours. This is a reduction over the amount required formerly for periodic kilns, the total saving amounting to over five tons of fuel per day.

The labor requirement of the kiln to produce the capacity of approximately 350 pieces of ware per day of 24 hours is as follows:

Two men are required to push the trucks, two gas makers, one for day and one for night and a helper for each, a day firemen and a night fireman and an extra man to take care of miscellaneous work about the kiln.

One of the vital points in the successful operation of the tunnel kiln, according to the superintendent, is the use of a reliable pyrometer system. Thermocouples are placed at regular intervals in the kiln crown and the fires manipulated so as to give certain temperatures at the various couple stations. These temperatures have been determined by experiment and have been found to be best for the most economical and successful operation of the kiln.

Since the proper system for operating the kiln has been determined there has been practically no difficulty offered and it works with great simplicity. Repairs have been exceedingly small and the big advantages gained are time and fuel saving.

Pottery Worker Seeks Citizenship.

James Hall, 24 years of age, appeared before United States Clerk John Conrad, at Wheeling, W. Va., and declared his intention to become an American citizen. Hall came to America from Glasgow, Scotland, in 1912. He is employed as a pottery worker in Wheeling.

Buyers in Local Market.

Among buyers visiting the local market this week were:

Carroll Baker, with Gimble stores, Philadelpia, Pa.

Charles Werner, of C. H. Werner & Sons Co., Detroit, Mich.

Mr. Burns, with Stone & Thomas, Wheeling, W. Va.

Fewer buyers were here this week than during any single week so far this season. The present is the "off season," so to speak, for buyers to visit this market. Many are on their annual vacations. Not many are expected before August 1, when the "boys" will again visit sample rooms in an endeavor to obtain additional merchandise for fall and holiday needs.

British Trade Falling Off.

During June there was a decided falling off in orders received by British potters. Orders during June were much less plentiful than during May or earlier.

Manufacturers of tea-pots, jugs and miscellaneous useful and fancy lines were the first to feel the decline in demand. Reports are that there have been many cancellations.

Some potters are inclined to believe that the selling price advances of May are responsible, but there will shortly be a rush of buying to the potteries again.

The feeling in the pottery district is that present prices will be maintained no matter whether orders are plentiful or not. Reports are that cheaper goods from continental Europe and Japan are coming into England and some wonder whether with respect to continental goods if the Germans are not sending in ware from other countries.

Rebuilding Plant in California.

Such headway is being made in the rebuilding of the plant of the Western Potteries company in Richmond, Cal., destroyed by fire recently, it is believed that the company will be able to start in operation again within 30 days. Two of the three large buildings have been replaced and excellent progress is being made on the third.

TUNNEL KILN AT KOKOMO SUCCESS

Hard Work and Stick-to-it-iveness Responsible for Progress Made In Kiln's Operation at Great Western Co. Plant.

Hard work and stick-to-it-iveness is what ultimately made the car tunnel kiln installation at the Great Western Pottery Co's plant at Kokomo, Ind., successful. When the kiln was first completed, considerable difficulty was met with in its operation, largely due perhaps, to the fact that its working principles were entirely different from that of periodic kilns which had previously been used to burn sanitary ware at this plant.

However, those in charge never lost faith or confidence in the wisdom of their choice and finally after getting a better understanding of the working principles have found the proper application and as a result they came out ahead and are now satisfied that they "have the best tunnel kiln on the market."

The installation at the above plant, which is one of the many factories operated by the Standard Sanitary Manufacturing Co., of Pittsburg, is an open or direct-fired type of railroad continuous tunnel kiln such as is designed by the Didier-March Co. It is 297 feet long. The tracks are loaded with 23 pieces of ware placed in sagger and the kiln's capacity is 12 to 16 trucks per 24 hours.

There are 16 gas producer burners located on earth side of the kiln, 12 which are used for firing. The difference in temperature between the first and last burner amounts to approximately 200 deg. Thus there is only gradual increases in temperature as the ware passes thru the firing zone. The pryometer registers a temperature of about 2,170 deg. Fahr. at the hottest point although cone ten is tipped over in the burning. The kiln is used only for bisque firing, the glazed ware being burned in the regular periodic kilns.

To make the gas for the kiln consumption, two International Clay Machinery Co., gas producers are employed. When the installation was first made, the gas from both producers was permitted to combine by entering a common flue and this was later divided to feed both sides of the kiln. Better results are now obtained by connecting one producer with one side of the kiln and the other producer with the other side. Eastern Kentucky coal is used for gas making.

The fuel requirements are eight tons of coal per 24 hours. This is a reduction over the amount required formerly for periodic kilns, the total saving amounting to over five tons of fuel per day.

The labor requirement of the kiln to produce the capacity of approximately 350 pieces of ware per day of 24 hours is as follows:

Two men are required to push the trucks, two gas makers, one for day and one for night and a helper for each, a day firemen and a night fireman and an extra man to take care of miscellaneous work about the kiln.

One of the vital points in the successful operation of the tunnel kiln, according to the superintendent, is the use of a reliable pyrometer system. Thermocouples are placed at regular intervals in the kiln crown and the fires manipulated so as to give certain temperatures at the various couple stations. These temperatures have been determined by experiment and have been found to be best for the most economical and successful operation of the kiln.

Since the proper system for operating the kiln has been determined there has been practically no difficulty offered and it works with great simplicity. Repairs have been exceedingly small and the big advantages gained are time and fuel saving.

Ohio Farmers Favor His Appointment if Harding is Elected.

COLUMBUS, July 23.—Ohio farmers are favoring the appointment of L. J. Taber, Barnesville, as secretary of agriculture if United States Senator Harding, Republican presidential nominee, is elected, or John A. McSparran of Pennsylvania if Gov. Cox, Democratic presidential nominee, defeats Senator Harding, according to members of a number of Ohio farm organizations.

Taber is master of the Ohio grange and McSparran is master of the Pennsylvania grange. Both men, it is claimed, are dry and are "dirt farmers." Taber also is a Republican presidential elector-at-large. McSparran is is credited with being one of the original Cox boosters for the presidency.

Many Democratic Ohio farmers are urging that O. E. Bradfute, Xenia, president of the Ohio Farm Bureau Federation, be chosen at the Democratic state convention which convenes here on August 17, as one of the presidential electors-at-large.

Ohio Farmers Favor His Appointment if Harding is Elected.

COLUMBUS, July 23.—Ohio farmers are favoring the appointment of L. J. Taber, Barnesville, as secretary of agriculture if United States Senator Harding, Republican presidential nominee, is elected, or John A. McSparran of Pennsylvania if Gov. Cox, Democratic presidential nominee, defeats Senator Harding, according to members of a number of Ohio farm organizations.

Taber is master of the Ohio grange and McSparran is master of the Pennsylvania grange. Both men, it is claimed, are dry and are "dirt farmers." Taber also is a Republican presidential elector-at-large. McSparran is is credited with being one of the original Cox boosters for the presidency.

Many Democratic Ohio farmers are urging that O. E. Bradfute, Xenia, president of the Ohio Farm Bureau Federation, be chosen at the Democratic state convention which convenes here on August 17, as one of the presidential electors-at-large.

Ohio Farmers Favor His Appointment if Harding is Elected.

COLUMBUS, July 23.—Ohio farmers are favoring the appointment of L. J. Taber, Barnesville, as secretary of agriculture if United States Senator Harding, Republican presidential nominee, is elected, or John A. McSparran of Pennsylvania if Gov. Cox, Democratic presidential nominee, defeats Senator Harding, according to members of a number of Ohio farm organizations.

Taber is master of the Ohio grange and McSparran is master of the Pennsylvania grange. Both men, it is claimed, are dry and are "dirt farmers." Taber also is a Republican presidential elector-at-large. McSparran is is credited with being one of the original Cox boosters for the presidency.

Many Democratic Ohio farmers are urging that O. E. Bradfute, Xenia, president of the Ohio Farm Bureau Federation, be chosen at the Democratic state convention which convenes here on August 17, as one of the presidential electors-at-large.

LURE OF Y. M. POOL HALTS BASKETBALL GAME

Lure of the pool at the Y. M. C. A. proved too strong for East End's representative basketball five Thursday afternoon and the scheduled basketball game between the East End and Central playlots was forfeited to the downtown aggregation.

The game was to have been played at 2:30 o'clock on the Central court and would have been the second of the inter-playground championship series. The East End team started for the downtown lot in good faith, but the heat of the summer afternoon drove the players to seek the cooling comforts of the "Y" pool to the discomfiture of the rival five awaiting the sound of the whistle on the Central court.

The basketball series now stands two to nothing in favor of Central's defenders. The first game of the series was captured by Central last week by the score of 36 to 6. A third game will be played at Central early next week.

Friday will be an idle day for all East End teams so far as inter-playlot contests are concerned. Games between pick-up teams will be played during the afternoon among the boys. The girls in charge of Miss Margaret Rice are enjoying a basket picnic on the hilltop above the suburban lot today. A weiner sizzle and watermelon feast will conclude the affair.

THOMAS E. POE HEADS MIDLAND AUTO CLUB

Thomas E. Poe, president of the First National bank of Midland, Pa., has been named president of the New Midland Automobile club, it was announced Friday.

The club has a charter membership of 20. "Permanent Improved Highways" is the slogan adopted by the new organization. Steps have already been taken to urge the improvement of the Beaver-Midland-East Liverpool road. J. Henry Geer of New Brighton, Pa., representative of the Pennsylvania state highway commission in western Pennsylvania, will be invited to confer with Midland authorities on the proposed paving project.

WORKMEN HURRY REPAIRS ON BROKEN WATER MAIN

With the city's water supply slowly ebbing, employes of the water works department worked all night Thursday in an effort to repair the break in the 20-inch main force line near the Smith-Phillips pottery.

Several joints in the "hump" in the line were forced apart in the break. A deep hole 20 feet in circumference was torn in the hillside by the force of the escaping water before the break was discovered.

The cause of the break remained a mystery to water works officials Friday. No defect in the pipe has been discovered. It is believed that the pressure of the water has gradually forced the pipe upward at the hump until the connections finally let go.

The repair work will not be complete dbefore tonight, Service Director E. J. Smith said. Meanwhile water for the entire down town district lying in the Thompson hill reservoirs is gradually settling downward and fears of a shortage are mounting.

Aid Society Lawn Fete.

Was your childhood playhouse built in the crotch of a tree with a rickety ladder leading up to it? Did you imagine yourself a bird in it's nest way up in the branches of the sturdy oak? And to make it real did you imitate the bird songs? What romancing was indulged in.

Mary Miles Minter

plays the role of Jenny, a young miss who has just such a tree house and imagines just such things imitating the birds and animals on her violin.

"Jenny Be Good"

runs the whole gamut of human emotions. It will move you to laughter, tears, smiles and chuckles as you see Miss Minter in this human story of society and the slums.

Also Mr. and Mrs. Carter DeHaven in one of those comedies that you enjoy and remember for a long time and laugh at it every time you remember it. "CLOSE TO NATURE."

LURE OF Y. M. POOL HALTS BASKETBALL GAME

Lure of the pool at the Y. M. C. A. proved too strong for East End's representative basketball five Thursday afternoon and the scheduled basketball game between the East End and Central playlots was forfeited to the downtown aggregation.

The game was to have been played at 2:30 o'clock on the Central court and would have been the second of the inter-playground championship series. The East End team started for the downtown lot in good faith, but the heat of the summer afternoon drove the players to seek the cooling comforts of the "Y" pool to the discomfiture of the rival five awaiting the sound of the whistle on the Central court.

The basketball series now stands two to nothing in favor of Central's defenders. The first game of the series was captured by Central last week by the score of 36 to 6. A third game will be played at Central early next week.

Friday will be an idle day for all East End teams so far as inter-playlot contests are concerned. Games between pick-up teams will be played during the afternoon among the boys. The girls in charge of Miss Margaret Rice are enjoying a basket picnic on the hilltop above the suburban lot today. A weiner sizzle and watermelon feast will conclude the affair.

Foot Is Injured.

Howard Blake, employe of the Trenle pottery, is confined to his home with a crushed foot sustained while at work. A heavy iron pipe fell across Blake's foot, crushing two toes. He was taken to his home in an automobile following the accident.

VACATION BIBLE SCHOOL GRADUATION TONIGHT

Arrangements have been completed for the first annual commencement exercises of the Vacation Bible school to be conducted Friday evening at 8 o'clock in the auditorium of the Second Presbyterian church. The general public is invited.

Edward Stotesbury, Wooster college man who has been acting as superintendent of the school, will have charge of the exercises. Following devotionals, a regular class room scene will be enacted for the benefit of the parents and friend of Vacation Bible school students. The regular schedule as followed during the five weeks' coruse will be carried out.

Rafia work, hand weaving, kindergarten work and other results of the term will be placed on exhibit in the church. The course terminates Friday.

THOMAS E. POE HEADS MIDLAND AUTO CLUB

Thomas E. Poe, president of the First National bank of Midland, Pa., has been named president of the New Midland Automobile club, it was announced Friday.

The club has a charter membership of 20. "Permanent Improved Highways" is the slogan adopted by the new organization. Steps have already been taken to urge the improvement of the Beaver-Midland-East Liverpool road. J. Henry Geer of New Brighton, Pa., representative of the Pennsylvania state highway commission in western Pennsylvania, will be invited to confer with Midland authorities on the proposed paving project.

WORKMEN HURRY REPAIRS ON BROKEN WATER MAIN

With the city's water supply slowly ebbing, employes of the water works department worked all night Thursday in an effort to repair the break in the 20-inch main force line near the Smith-Phillips pottery.

Several joints in the "hump" in the line were forced apart in the break. A deep hole 20 feet in circumference was torn in the hillside by the force of the escaping water before the break was discovered.

The cause of the break remained a mystery to water works officials Friday. No defect in the pipe has been discovered. It is believed that the pressure of the water has gradually forced the pipe upward at the hump until the connections finally let go.

The repair work will not be complete dbefore tonight, Service Director E. J. Smith said. Meanwhile water for the entire down town district lying in the Thompson hill reservoirs is gradually settling downward and fears of a shortage are mounting.

Aid Society Lawn Fete.

A lawn fete will be given under the auspices of the Ladies' Aid society of the Boyce M. E. church in the vacant lo tnear the concrete bridge at the corner of Elizabeth street and Harvey avenue tonight. Ladies of the church will serve ice cream, cake, coffee, buttermilk, ham and weiner sandwiches. The Boyce M. E. church orchestra will furnish music for the occasion.

A female haddock lays about 1,000 eggs.

Boxing gloves were invented in 1873.

E. LIVERPOOL LADY WAS LEFT IN A BAD CONDITION

Was Confined to Bed for Two Weeks From "Flu." Left Her Kidneys Weak and Strength at Low Ebb.

Three Bottles of Dreco Have Made Her Well and Strong With No Trace of Her Former Ails.

"Early in the winter I had a severe attack of "flu" which kept me in bed for weeks. I was already pretty badly run down so this made it all the more serious," declared Mrs. Anna Martin, residing on Dresden avenue, East Liverpool, O.

"My kidneys were very weak and I had severe pains in my back and limbs; my liver was sluggish, often giving dizzy spells, vertigo and headaches; I had catarrh of the head so that my breathing was difficult and I was beginning to get a little deaf.

"My husband heard about the wonders of Dreco and got some for me. I have now taken three bottles and I'm a well woman. Never have a pain in my back, liver has been freed of the excess bile so that I no longer get dizzy or have headaches and the catarrh has disappeared, I eat big meals, digest everything, sleep well and my strength has increased so much that I walk two miles to my work and two miles back, every day. I expect to always have Dreco in my house."

Any remedy that restores the natural functions of the human body is a health-making remedy. The use of Dreco, the great herb medicine, tends to restore the appetite, to procure natural digestion, which if followed by an increased circulation and nutrition of the whole body, lean, haggard, bloodless people begin to gain weight, strength and flesh at once from taking Dreco, as they themselves declare in signed testimonials.

All good druggists now sell Dreco and it is being especially introduced in East Liverpool by Flick's drug store, Fifth and Market streets.

Where Can They Go?

Homes are more difficult to find and more costly to build than ever before.

When the home burns, possessions that money cannot replace are destroyed—frequently lives are lost.

Adequate fire insurance repays the money loss; but safety can be secured only by preventing fire.

A Hartford Fire Insurance Company policy entitles you to Hartford Fire Prevention service at no extra cost. Both are obtainable through this "Hartford" Agency. You should have them both.

WALTER JOHNSON'S NO-HIT PITCHING FEAT ADDS TO A TRULY GREAT PITCHING CAREER

Walter Johnson.

When Walter Johnson the other day in his unassuming manner hurled a no-hit game he added his sixth great pitching feat to the records. Probably Johnson's most celebrated feat was his strike-out record of 313 men in 1910.

Sport Brevities

Star for a day—Roger Peckinpaugh.

His two homers off Stan Coveleskie featured the victory of the Yankees over Cleveland.

—

Dickie Kerr outpitched Harry Harper in a southpaw pitching duel at Boston. Timely hitting by Kerr, Weaver and Collins helped.

—

Welch's single with the bases full in the third inning gave the A's. the necessary edge over the Tigers.

—

Zachary kept nine St. Louis hits scattered and the Senators crowded the Browns out of the first division.

—

Jess Barnes pitched the Giants into fourth place in the National league race when he tamed the Reds.

—

Oeschger's great pitching in all but one inning and a ninth inning rally gave the Braves their game at St. Louis.

—

Cadore weakened in the seventh inning and the Pirates grabbed another game from Brooklyn.

"THE RED LANE"
A BEAUTIFUL PICTURE FULLL OF HUMAN APPEAL

It is an outdoor story, taken among the hills and forest on the line between the United States and Canada. Simple folk, including a kind-hearted priest, are the characters. Land sharks evict the farmers from their homes. The hero, a customs officer, is shot by some smugglers, who are co-operating with the land sharks. The heroine, daughter of one of the smugglers, just back from the convent, treats his wounded arm. She runs away from home, because her father wants her to marry the gang leader. The gang kidnaps her, but the hero saves her. The hero takes up the cause of the farmer folk and wins out. He marries the girl.

TENNIS BODIES MAY BE MERGED

Showing by Americans In Britain Brings Affiliation Idea Into Bolder Relief.

BY JACK VEIOCK

NEW YORK, July 23.—The possibility of the United States Lawn Tennis Association affiliating with the International Lawn Tennis Federation is getting a great deal of speculative attention these days on both sides of the Atlantic.

The wonderful showing made by American players in recent tennis classics in England brought the question of this affiliation into bolder relief than it has enjoyed for some time, but the U.S.L.T.A. at this writing is still standing firm against the move.

The stand of the American parent tennis body has been taken largely because of the fact that the Federation has insisted all along on the perpetual award of the so-called world's tennis championships to Wimbledon. Watson Washburn, chairman of the U.S.L.T.A.'s committee which conferred with officials of the Federation has outlined the stand of the Americans as follows and it appears that the stand is justified:

"We are second to none in our respect for the splendid traditions of Wimbledon, and we hope and believe they will be more splendid still. But is it not as unreasonable for England to claim a perpetual right to the world's individual championship because of her early services to the game as it would have been for America to insist on having the Davis Cup matches played always in America because an American originated them? Such a perpetual ownership is unknown in other sports. Either rotation, as in the Olympic games, or challenge matches, are universal. We have suggested both these alterations, with various modifications to the International Federation, but so far without success. However, we are hopeful of the final result."

Commenting upon this the London Field said: "Is Mr. Washburn's plea sound? Undoubtedly it is, and we go further and say that the position created today is precisely what the Field feared would develop when seven years ago it protested against the conferment of the title "world's championships" on the championships at Wimbledon. Our argument then war, and it holds good today, despite the acceptance of the title, that the word "championships," sanctified by history and tradition, was quite good enough for all concerned; that to add 'worlds' to this designation was like painting the lily; that such a device was derogatory to an amateur game, and that to persist in the proposal might conceivably offend our American friends with whom we desired to be on terms of the most cordial relationship. But our legislators did not share our views, however honest and well meaning they may be.

"The first step is to get America into conference; the next is to constitute an international board from which America cannot possibly be excluded; the third is to remove the purely ornamental title of "world's" from the Wimbledon program, an act which would in no way disparage the tournament, nor impair its popularity nor reduce its gate, nor detract from the honor and prestige of winning the championship. It may be said, "but suppose America or Australia establish a world's championship of their own?" Every championship meeting is a world's championship in the sense that (barring war restrictions) it is open to the whole world. It is for every governing body to agree in principle that no country should be allowed to arrogate to itself a title which is inimical to the best and truest interests of amateur sport."

In connection with the foregoing, the recent correspondence between Julian S. Myrick, president of the U. S. L.T.A. and Lord Desborough, the president of the British L.T.A., indicates the possibility of an agreement being reached.

You Can Play the Gulbransen Better Than You Ever Could Have Played by Hand

That is true of nearly everybody. Because playing the piano is a two-sided art. The mechanical art of "reading" and "fingering"—and the mental art of playing the music interestingly.

One has no connection with the other—except that notes must be struck by some means before we consider how they shall sound. In fact, until correct striking of notes is accomplished — whether by hand or by mechanism—only then does interesting music become a possibility.

The Gulbransen starts you off at the point in musical education where perfect command of the piano is accomplished. It strikes the right notes unfailingly. And it enables you to play them in anq desired style of shading, phrasing or rythm. It offers every degree of tone value. It gives you full control of all of these.

Showing by Americans In Britain Brings Affiliation Idea Into Bolder Relief.

DEFENDER WILL FACE TEST TODAY

Course Will Be Triangular—Both Yachts Overhauled for Deciding Event.

By FRANCIS J. WHITE.

ABOARD U. S. S. GOLDSBOROUGH OFF SANDY HOOK, N. J., July 23.—The stage is set for the fourth and not unlikely deciding race of the America's cup series.

Shamrock returned to her anchorage at Sandy Hook last night after a brief spell in dry dock, and this morning both boats are riding at their anchors like greyhounds waiting to be released from the leash.

Today's course is of the triangular variety, the kind in which Shamrock gained her victory on Tuesday last. On that occasion, which consisted of two reaching legs and one in a fair wind, the Britisher found a race that suited him exactly, and proved that reaching is his strong suit. It is the rule whenever possible to make this course a beat to windward on one leg and two reaches, but, while the issue lies in the hands of the wind god, it is expected in many quarters that the Lipton sloop will repeat last Tuesday's performance.

In that case all would be over except formally taking over of the coveted mug and conveying it across the Atlantic. Resolute has been overhauled from stem to stern and her people say she is fit and ready to win on her time allowance which in today's race will be six minutes and 40 seconds. This was reduced because Shamrock will use her small topsail the same as on Tuesday last.

The American crew realize that it is do or die with them today. With a win they can bring matters to a tie, and so every move has been carefully studied, every nerve is strained to cross the line inside that time allowance.

Seamanship will count big today as both skippers have learned considerably of each other by this time. Whether either has something in the way of strategy up his sleeve, remains to be seen. The weather this morning is dull with a heavy sky that is slowly lifting.

The little wind there is, is southerly, and while conditions appear rather unsettled, it is not likely to be a day of straining sheets and decks awash.

If the Shamrock people expected to find any real impediment on their boat's undersides when she was hauled in drydock yesterday, they were doomed to disappointment. No oil or marine growth was visible, but it was disclosed that her deck aft had strained and slightly lifted, something that was quickly remedied.

When Sir Thomas was reminded last night that an unlucky day in Friday had been selected for what is the most important event in the series, he replied, "it may mean bad luck for the Resolute."

YACHT CLUB WILL BE READY WITH CHALLENGE

HIGHLANDS, N. J., July 23.—If Sir Thomas Lipton's big green challenger wins today's race and lifts the America's cup to the other side of the Atlantic the New York Yacht club will immediately challenge for a race with schooner yachts with a water line of 115 feet.

This was the word out today setting all hands of the American crew on the qui vive.

Conditions early today looked unsettled but the rain held up as the forenoon progressed and the race probably will be sailed. There was a good breeze from the westward, with signs of clearing over the land, after a night of rain, thunder and wind.

PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left one female or egg unmolested for one year? To rid the pesky bedbug, you can readily see how necessary it is to use a preparation that will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad Companies that the safest and most economical way to stop future generations of bedbugs, roaches, fleas and ants is to use the new discovery Pesky Devils Quietus "P. D. Q."

A 35c package of P. D. Q. makes a quart, enough to kill a million bedbugs, roaches, fleas and cooties and at the same time destroy their eggs.

Impossible for them to exist when P. D. Q. is properly used. Free, patent spout in every package to get the pesky devils in the hard-to-get-at-places and save the juice.

Special Hospital and Hotel size $2.50—makes five gallons of P. D. Q.—your druggist has it or can get it for you, or sent prepaid upon receipt of price by the Owl Chemical Co., Terre Haute, Ind. Success of P. D. Q. has caused imitators; genuine P. D. Q. is never peddled.

Sold by T. C. Flick, J. D. Holloway, Druggists.

DEFENDER WILL FACE TEST TODAY

Course Will Be Triangular—Both Yachts Overhauled for Deciding Event.

By FRANCIS J. WHITE.

ABOARD U. S. S. GOLDSBOROUGH OFF SANDY HOOK, N. J., July 23.—The stage is set for the fourth and not unlikely deciding race of the America's cup series.

Shamrock returned to her anchorage at Sandy Hook last night after a brief spell in dry dock, and this morning both boats are riding at their anchors like greyhounds waiting to be released from the leash.

Today's course is of the triangular variety, the kind in which Shamrock gained her victory on Tuesday last. On that occasion, which consisted of two reaching legs and one in a fair wind, the Britisher found a race that suited him exactly, and proved that reaching is his strong suit. It is the rule whenever possible to make this course a beat to windward on one leg and two reaches, but, while the issue lies in the hands of the wind god, it is expected in many quarters that the Lipton sloop will repeat last Tuesday's performance.

In that case all would be over except formally taking over of the coveted mug and conveying it across the Atlantic. Resolute has been overhauled from stem to stern and her people say she is fit and ready to win on her time allowance which in today's race will be six minutes and 40 seconds. This was reduced because Shamrock will use her small topsail the same as on Tuesday last.

The American crew realize that it is do or die with them today. With a win they can bring matters to a tie, and so every move has been carefully studied, every nerve is strained to cross the line inside that time allowance.

Seamanship will count big today as both skippers have learned considerably of each other by this time. Whether either has something in the way of strategy up his sleeve, remains to be seen. The weather this morning is dull with a heavy sky that is slowly lifting.

The little wind there is, is southerly, and while conditions appear rather unsettled, it is not likely to be a day of straining sheets and decks awash.

If the Shamrock people expected to find any real impediment on their boat's undersides when she was hauled in drydock yesterday, they were doomed to disappointment. No oil or marine growth was visible, but it was disclosed that her deck aft had strained and slightly lifted, something that was quickly remedied.

When Sir Thomas was reminded last night that an unlucky day in Friday had been selected for what is the most important event in the series, he replied, "it may mean bad luck for the Resolute."
